PROFESSIONAL SUMMARY

Dedicated and results-oriented professional with extensive knowledge in engineering and software components. Experienced in collaborative environments, focusing on quality development, robust architectures, and efficient problem solving.

TECHNICAL SKILLS

Python, Django, FastAPI, PostgreSQL, AWS, Docker, Kubernetes, CI/CD, Git, Redis, REST API, System Design

WORK EXPERIENCE

Senior Software Engineer - TechCorp Solutions (2021 - Present)

- Lead a team of 4 developers to build scalable Backend REST APIs using Python, FastAPI, and PostgreSQL.
- Migrated legacy monolithic services to Microservices running on Docker and Kubernetes inside AWS.
- Improved API response times by 40% through redis caching and database index tuning.
- Implemented CI/CD pipelines using GitHub Actions to automate unit testing and container deployment.

Python Developer - DevSoft Inc. (2018 - 2021)

- Developed backend web modules for high-traffic Django web application.
- Collaborated with frontend React developers to implement features and RESTful endpoints.
- Analyzed databases and optimized queries, cutting SQL execution time in half.

EDUCATION

Bachelor of Science in Computer Science - Stanford University (2018)
